Diagnosed hardware issues through troubleshooting and resolved them efficiently. Repaired and replaced faulty hardware components to ensure optimal performance. Configured and installed new hardware to meet the needs of users.

🎓 EDUCATION

Ministry of Education & KMD Computer Center

Diploma in Network Communication and Computer Hardware

2018 – 2019 | Yangon, Myanmar

- University of Distance Education, Yangon, Myanmar

Myanmar Route Technologies Institute

Diploma in Information Technology

02/2021 – 11/2021 | Yangon, Myanmar

I completed my **Diploma in Information Technology** in **November 2021**, after an in-depth and rewarding learning journey. Throughout the course, I gained hands-on experience with key IT concepts such as computer hardware and software, programming (including languages like Python and Java), networking fundamentals, database management, and web development.

The program helped me build a strong foundation in both the technical and practical aspects of IT. I worked on real-world projects, collaborated with classmates, and learned how to troubleshoot and solve problems efficiently. Finishing this diploma gave me the confidence and skills to pursue further opportunities in the tech field and laid the groundwork for my career in Information Technology.

Myanmar Route Technologies Institute

Advanced Diploma In Information Technology

02/2022 – 11/2022 | Yangon, Myanmar

I completed my **Advanced Diploma in Information Technology** at **MyanmarRoute Technologies Institute**, studying from **February 2022 to November 2022**. This program expanded on my foundational IT knowledge and allowed me to explore advanced topics such as network administration, system analysis and design, advanced programming, software development, cybersecurity, and cloud computing.

During this period, I engaged in hands-on projects and practical training that strengthened my ability to apply theoretical knowledge to real-world scenarios. The course also improved my teamwork, critical thinking, and technical problem-solving skills under the guidance of experienced instructors.

This advanced diploma marked an important step in my professional journey, preparing me for more specialized roles in the IT industry and deepening my understanding of current and emerging technologies.

Myanmar Route Institute

Bachelor of Computer Science

2024 – 2026 | Yangon, Myanmar
